Installation Steps

New around here? View our **getting started page** to get acquainted with the Elastic Stack.

1	Download and unzip Logstash

ℹ Logstash can also be installed from our package repositories using apt or yum. See **Repositories in the Guide**.

2 Prepare a logstash.conf **config file**

3 Run `bin/logstash -f logstash.conf`

4 Dive into the **getting started guide** and **video**.

Be in the know with the latest and greatest from Elastic.
